

Tapes *Flexible Duct Tape*

Benefits of Flexible Duct Tapes

- Excellent alternative to aluminum foil tape. No liner makes it easier and faster to use and delivers a tighter seal due to the elongation characteristic of the film
- Meets ULC-S109-2003-Standard for flame test on flame resistance fabrics and films as required by National Building Code 9.33.6.3
- Resistant to mold, moisture, flame spread and smoke generation
- Strong holding power, provides permanent bond
- High shear, high tack acrylic adhesive
- UV resistant

Applications

- Sealing of flexible air ducts and air connectors
- Sealing of metal duct and connections
- Sealing of foam insulation used for water pipes

Technical Data

Colour	Black (01), Silver (21)
Backing	U.V. Treated Polypropylene Film
Adhesive	High Performance Acrylic
Thickness	3 mils
Adhesion to steel	40 oz./in
Tensile strength	30 lbs/in
Elongation	140%
Application Temperature	-10°C (14°F) / 50°C (122°F)
Temperature Resistance	-10°C (14°F) / 100°C (212°F)

Sizes Available

Size	48mm x 110m -- 24 rolls/case
	72mm x 110m -- 16 rolls/case
