

ThermoFlo Elbow

Flexible duct elbow supports

ThermoFlo Elbow is a radius forming brace for flexible ducts that's engineered to improve airflow and HVAC system efficiency. It saves energy by eliminating kinks and airflow restrictions and shapes flexible ducts into efficient 90-degree elbows. Made from 100% recycled materials, ThermoFlo Elbow works with all kinds of flexible ducting and is U.L. approved. It's easy to use and can be installed on new ducting, or used to retrofit existing flexible ducts.

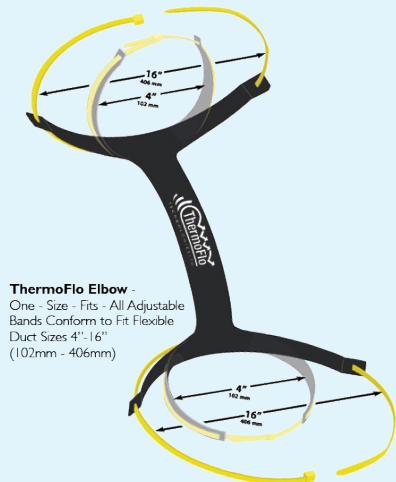

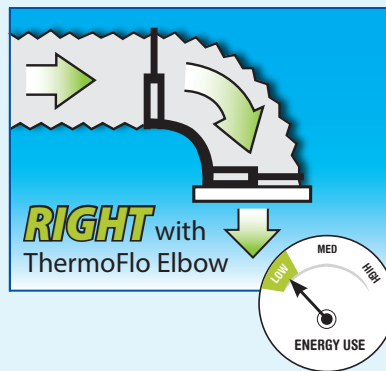

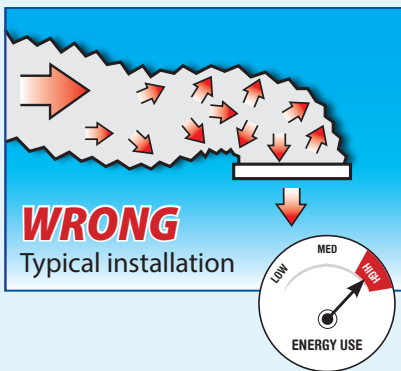

Benefits of ThermoFlo Elbow

- Reduces costs
- Saves energy
- Improves airflow by forming an efficient 90-degree elbow
- Perfect for hydroponics and indoor gardening
- Improves the environmental conditions for plants
- One size fits all 4" to 16" flexible ducts
- Install on wide range of ventilation systems
- Works with all kinds of flexible ducting
- Easy to install, no special tools required
- U.L. Listed

Sizes Available

Size One size fits all 4" to 16"

ThermoFlo Elbow -
One - Size - Fits - All Adjustable
